FLORENCE

SEWING MACHINE.

Copy of the Report of the Committee of Awards at the Fair of the

AMERICAN INSTITUTE

NEW YORK, 1865.

To the FLORENCE SEWING MACHINE CO. for the Best Family Sewing Machine.

Highest Premium! Gold Medal!

REASONS:

1st.—Its simplicity and great range of work.

2d.—The Reversible Feed Motion.

3d.—The perfect finish and substantial manner in which the Machine is made.

4th.—The rapidity of its working and the quality of the work done.

5th.—The self-adjusting Tension.

The Florence was awarded the first and highest premium at the State Fair of California, the only Fair on the Pacific coast at which two double thread Sewing Machines were exhibited in competition in 1865.

The Florence received the only premium awarded by the Mechanics Institute of San Francisco, in 1864 and 1865, to any Sewing Machine. Sewing Machine Co., or Agent. The claim of a competitor to a medal is without any foundation whatever.

Wherever the Florence has been brought in competition with other Sewing Machines, it has always been declared the best. It is the most simple, the most substantial, the most efficient, and its use is easily learned. Every Machine sold is guaranteed in the full sense of the word.

THE DYING MOTHER.

We were weeping round her pillow.

For we knew that she must die.

It was night upon the sky.

There were seven of us children.

The oldest one of all.

So I tried to whisper comfort.

But the blinding tears would fall.

On my knees my little brother.

Leaned his aching brow and wept.

And my sister's long black tresses

O'er my hearing bosom swept.

The shadow of an awful fear

Came over me as I stood.

To lay the burden of our grief

Before the throne of God.

"Oh! be kind to me another."

Was our mother's pleading prayer.

As her hand lay like a snowflake

On the baby's golden hair.

Then a glory round her forehead.

Like the glory of a crown.

And in the silent sea of death

The star of life went down.

Her latest breath was borne away

Upon that loving prayer:

"On that hand heavier—paler,

In the baby's golden hair."

DUTCH FLAT ENQUIRER.

SATURDAY, NOV. 23, 1867.

RAIN.—We have now had a continual storm of rain since the 19th instant, aiding to fill our ditches and materially forwarding the mining operations of those engaged in that department of industry both at this place, and the several mining localities in the vicinity. The rain extended some distance above Cisco, filling the Yuba river to its utmost capacity, and making the wagon roads above that place as wretched as the most confirmed misanthrope could desire. Our mining season may now be considered as fairly commenced, and we hope our miners will reap a rich harvest from the arid fields in which they are engaged. We will be glad to chronicle the operations of the miners, whether in this immediate locality or not, if we can get the items to enable us to do so, and for this purpose invite our friends to send us the facts. If persons will give us the items we will endeavor to put them in proper shape, and consider ourselves benefited in so doing. We desire to make the ENQUIRER a home institution, and for that purpose we are compelled to rely, in a great measure, upon the kindness of friends in furnishing the local news of the district.

FIRE.—About 8 o'clock on Saturday morning last, a fire broke out in Schubert's building, foot of Main street, occupied by a German physician, caused by a defective stove-pipe. The firemen were quickly on the ground, and in a few moments extinguished the flames with but little damage to the building or contents. The reprehensible practice of "outsiders" interfering with the firemen was strongly indulged in. At such a time, when all is excitement, and urgent necessity exists for prompt and energetic action, men who are not actually engaged in fighting the flames should refrain from giving suggestions or commands, allowing the firemen to use their own judgment and discretion, which in most cases would prove that they were in the right.

SERVED HIM RIGHT.—A Russian miner, named Charles Williams, came into town on Sunday last, got drunk and also abusive. About 10 o'clock at night he started in on Tommy Teaff, and called him a name not fit to be mentioned in polite society. A retraction was demanded and refused, whereupon Tommy threw out the flexors and extensors of his right arm, which straightened up against the Russian's eye, knocking him completely off his pins, and clothed his optic with a highly colored circle of mourning. Williams then drew a pistol, which was taken from him before he could use it. He had a horrible looking eye, but the unanimous verdict of the bystanders was that it served him right.

MASQUERADE.—We thankfully acknowledge the receipt of complimentary tickets to a masquerade ball, to be given by the ladies and gentlemen of Auburn, on the 28th instant—next Thursday evening. We understand that these gatherings are all any one could ask for in the way of amusement and pleasant enjoyment. There are none admitted save those specially invited, which at once secures the attendance of only such persons whom the projectors of the entertainment are willing to have present. We wish those who may attend every enjoyment, and regret we cannot be present to receive that pleasure we are certain would otherwise await us.

ACCIDENT.—On Saturday last a Chinaman employed at the Eureka Hair Factory was sent out to shut off the water that runs the machinery. Not returning, and the water not stopping, some one went out and found the Chinaman wrapped up in the belt, under the wheel. The Chinaman, when removed, was supposed to be dead, but recovered his consciousness in about an hour, but vomited blood profusely. It is thought he will recover.

REMOVAL.—The correspondents of Messrs. Hall & Harnden, Bankers and Exchange Brokers, will please take notice of the fact that they have removed from No. 400 1/2 California street to No. 436 on the same street, where they may at all times be found ready to issue bills of exchange, buy gold dust, gold and silver coin, and transact a general banking and collecting business.

THE NEW YORK TRIBUNE comes out in a double-leaded editorial for Chief Justice Chase for President. It is well for individuals to make their nominations now, because the Republican party will take the field by-and-by.—*Boston Transcript.*

The same may be said of those who in this State are attempting to nominate candidates for Electors.—*Bee.*

Why, then, are you saying who shall not or shall be nominated?

A WINDFALL.—Several days ago a laborer was engaged in digging post holes at Colfax, when he turned over with a shovel of dirt an old California "slug," worth fifty dollars. He kept the good luck a secret until he had enquired of his employers and others if "they had lost anything about there" and was satisfied that there was no claimant for his "piece." As the town of Colfax is a new place, the coin was no doubt lost by some early prospector who pitched his tent in that locality in "flush times."

MRS. DENOLLE.—This lady who was captured by the Indians in Idaho has not been heard from by the parties sent in search of her. But there are rumors that she has been sent to Winnemucca, Plute Chief, to be traded or sold to him.

CISCO.—We visited this thriving town on Tuesday and Wednesday of this week, and found it "alive with business;" a great many persons are congregated at this point, and the most of them appear busy in some one of the various avocations of life. Those in business there appear to be doing well, and everything wears a pleasing, lively look, even to the immense holes of mud, which are found without seeking for, seem to rejoice in the certainty—as long as they continue—of human misery and the increase of the shoemaker's profit. The Railroad House is doing a splendid business, from fifty to one hundred persons taking their meals and lodging therein daily and nightly, and right good fare and other accommodations doth mine host, Wash. Madden, spread before his hungry guests. We know of no better business being done in the interior than that of Mr. Madden at the present time. The Railroad Company is making great exertions to ensure transporting freight to and storing it at this place, and those who appear to be knowing ones in this kind of business do not hesitate in pronouncing the entire success of the Company. The sheds now in course of erection over the freight-track at Cisco extend about three-quarters of a mile, and these with the spacious warehouse of the Company, and the number of teams running to take off the freight will likely be amply sufficient until the cars run over the Summit, which is likely to take place about July or August next. When the depot at this place is removed, the glory of Cisco will depart, and the busy hum of business that now greets the traveler on his arrival will "know it no more forever," unless, indeed, the mines in and about Meadow Lake should make a summersault, in which case it will live and thrive and the stockholders of the different mines will be blessed with a partial return of the hundreds of dollars of which they have been scandalously robbed; for which, "as in duty bound, we will ever pray."

BALL.—The members of Olive Lodge I. O. O. F., and many visiting brethren from sister Lodges had a most agreeable time on the evening of Thursday last during the visit of the most worthy Grand Master of the State, C. N. Fox. In the early part of the evening in question the lodge room was crowded with the members of the Order and many ladies, when the beautiful degree of Rebecca was conferred; after which the company adjourned to the Placer Hotel where a supper had been prepared of which the members and invited guests partook with a zest. After supper, those who felt disposed repaired to the dancing hall over the Golden Eagle saloon which had been prepared for the purpose and where music had already struck up the enlivening strains of the dance, and together with some sixty couples who had assembled plunged into the festivities of the occasion which held them bound until about five o'clock yesterday morning. The best of good feeling prevailed during the entire evening, each vying with the other in promoting the enjoyment of the other, and in which good work every one seemed eminently successful. This occasion will be long remembered as one of a feast of reason and flow of all the better attributes of our nature. Another visit from the Grand Master would revolutionize old feelings.

FREE OPENING.—Mr. Meyer, who has been engaged in fitting up a new saloon on the corner of Sacramento and Main streets will open his establishment to the public this evening, and invites all who are partial to unadulterated beverages to give him a call. From samples which have been furnished to judges and who have given said samples their unqualified approval we should not be surprised if John had some "invigorating medicine" in his shop; in any event you are safe in looking in at his bar. warrants not to kill you outside the bar.

ATTEMPT AT STAGE ROBBERY.—The Nevada Gazette, of the 20th instant has the following:

An unsuccessful attempt was made to rob Gregory & English's stage, which runs from Lake City to Moore's Flat, on Monday evening. This stage connects with Gregory & English's Eureka stage at Lake City and carries passengers into Moore's Flat. On Monday a shipment of \$400 was made from Marks & Co's banking house in Lake City to the banking house of the same firm at Moore's Flat. It was placed in the express box, which consists of a chilled iron safe locked with a combination lock, inside of a wooden box, the latter being also locked with a hasp and padlock. The stage was driven by McKinney, the only passenger being Kite Robinson, of Eureka South. About half a mile east of the Back Bone House on a slight rise in the road, a man came out from the bush, and told the driver to "stop and put his foot on the brake or at the inner one. The driver said to him, "If you are going to blow up that box let me get down and get my horses off." The robber replied, "I have no powder." After working about three-quarters of an hour, he got out of the stage, and exclaimed: "I guess I'm caught out! Drive on!" We doubt if there ever was a more reckless attempt to rob. The hammering was distinctly heard at the Back Bone House, and during the whole time the robber was at work, the pistol was out of his hands.

LETTER FROM COLFAX.

COLFAX, NOV. 17, 1867.

EDITOR ENQUIRER.—Since the political contest has passed, there are but few who trouble themselves to let the public know anything concerning our flourishing town. A few items may not be uninteresting.

Improvements have been going on for the last three months which have added greatly to the appearance and permanency of our town. Two large two-story brick buildings have been erected, adjoining each other, on Front street—one by the Masons and the other by the enterprising firm of Hayford & Nicols; and many frame buildings have been and are now being completed, making in all a decided improvement in the last few months.

On yesterday, while out hunting, a mile east of town, Mr. Cross and others found the dead body of a man under rather singular circumstances. The body was found in a deep ravine that empties into the American river, a short distance above Rice's bridge. When found, the head was completely severed from the body, and lying some distance from it. The body was found under an oak tree, in an advanced state of decomposition, showing that it had remained there for several months. A piece of rope was found suspended from a limb over the body. A pair of boots and an old shirt were also found near by, but nothing to throw any light on the mysterious affair, yet it is presumed the unfortunate being committed suicide. Rumor says his name was Charles Jasson, or Johnson, a Swede by birth, who had previously lived at Iowa Hill, but in the beginning of the Summer lived here. He started from here about the 1st of July last, and had not been heard from since. He was of intemperate habits, and had often threatened self destruction.

Mining is all the go here. The late encouraging prospects of the Rising Sun company have put our quartz men at work. This enterprising company have erected hoisting and pumping machinery. They have sunk their shaft to the distance of sixty-seven feet, and have found most encouraging prospects. At first the company only intended to have sufficient power of machinery for that purpose, but after a more thorough test of the ledge, they have determined to have a boiler of sufficient capacity to run a ten-stamp battery in addition. The whole machinery will be in working order in two weeks. Meantime the work is going on in the shaft. This company deserves a great deal of credit for their enterprise, as it will not only test their own, but many other ledges in the vicinity that are known to be rich.

MISCELLANEOUS.
Our resident physician is absent, consequently we have no deaths to record. Our town is very healthy.—Dr. C. says it is alarmingly so—and unless we can manufacture some *malaria*, or break some innocent skulls, he cannot make an honest living.

I am told we are soon to lose our worthy townsman, Col. P. H. Sibley. On the first of December he is going to take charge of the Commissary department of the State Prison, by appointment from Governor Haight. This is not certain, but everybody believes it here.—Our friend's efforts in the cause of Democracy in the late campaign should entitle him to something. We mourn his absence, and regret the necessity that has compelled one of our best citizens to leave us.

Another lawyer, of no less distinction, it is said, will soon go from our gaze. A. M. Walker, the defeated candidate for judicial office at Cisco in the last election, has lately returned, but to remain only a short time. His friend, J. A. Johnson, Member of Congress from the Third Congressional District of California, will undoubtedly obtain for him the office of Superintendent of Indian Affairs, to be stationed at the Tehama Reservation. Bully for Walker! His subordinates, it is supposed, will be selected from this place. A well known lawyer and expert accountant will be his chief clerk, and others of lesser note here will serve in more insignificant capacities. Walker is jubilant, and has figured the matter down to a certainty.

MORE ANON.

THEATRICAL CELEBRITIES.—Most California theatre-goers will remember the names of John S. Potter and Caroline Chapman, both of whom were long connected with stage of this State. The Portland Oregonian has been informed that the former died at Julesburg a few months since, from the rupture of a blood vessel of the lungs. The latter committed suicide by poisoning at Council Bluffs. She was the wife of a man named Nichols, but had deserted him and was living with another man, a prizefighter.

A BOILING LAKE.—In Monitor valley, a short distance south of Humphrey's Station, says the Reese River Reville, is a singular boiling cauldron, now known as Diana's Bowl, which is well worthy of a visit. In the center of a low, round hill, composed of sedimentary matter, there is a natural bowl about seventy-five feet in depth. At the bottom there is a large volume of seething water, constantly in active ebullition. The water is so remarkably pure that a stone thrown into it is seen descending with a slow spiral motion to a great depth, being gradually drawn toward the point where the spring seems to burst from the rocks beneath. The most singular feature about this hot spring is, that it does not appear to have any outlet, and yet its level does not seem to vary. The surface of the water is some twenty feet lower than the rim of the bowl, and can be reached only by the aid of a rope.

NEWS ITEMS SINCE OUR LAST.

THE Sheriff of Nye county (Nev.), had a complaint to serve upon a Mrs. McEvoy, in case of her husband applying for divorce. The complaint alleged adultery. The Sheriff struck the wrong Mrs. Mac, and proceeded to read. The lady stood amazed till he got to the charge of a lute, when she threw a frying pan loaded with hot fat and doughnuts at him, and the Sheriff quit the premises.

A very heavy hurricane was experienced on the Alaska Coast on the night of the 27th ult. The U. S. steamer Osage narrowly escaped being lost, with the Commissioners on board, and a number of houses in Sitka were blown down. Some forty-six of the crew of the Osage were injured in fighting the storm. No serious accident occurred in the harbor of Sitka.

THE Arizona Union, published at Prescott (A. T.), has been for a brief time under the editorial charge of William J. Boggs, formerly connected with the press of this State. Mr. Boggs has been missing for several months, and many of his friends had feared that he had met with some more fatal mishap than getting connected with a country newspaper.

WM. BETTIS, who was injured some time since while placing the iron safe in the vault at the Court House at Nevada, received an additional injury a few days ago by falling from a scaffold, at this residence in Grass Valley.

THE Internal Revenue returns for October in San Francisco, shows that Murphy, Grant & Co., of that city, made sales in that month amounting to \$400,000, and that Strauss & Co's sales equaled \$338,000. These firms are in the dry goods business.

MISS LINDSAY, aged some seven years, died suddenly, recently, in Virginia City. She was worth several thousand dollars in real estate and other property, but so miserly in disposition that she often denied herself the necessities of life.

THE new grass so rapidly spreading in the South, called Lepidosa, came from Japan. The Charleston papers unite in pronouncing it the greatest blessing in the form of grass that has ever been bestowed on the South.

A NUMBER of paper duels are said to have been arranged between high Russian and American dignitaries during the transfer of Alaska; but good counsels finally prevailed, and no hostile meetings occurred.

JAMES COATES, one of the wounded in the bloody affair at Little Lake, Mendocino county, on election day, is reported to have died recently. This makes the seventh victim to this family feud.

ON Friday last, Thomas Joy, a miner working in the Trojan mine, Austin, Nevada, fell down a shaft a distance of fifty feet. Though badly injured he will probably recover.

A HORRIBLE murder was committed at Rich Gulch, near Mokelumne Hill, on Saturday morning. Jerry McKisson was the victim, and Byron Fallon the murderer. He was arrested while trying to escape.

SIX hundred and ninety-two prisoners are now confined in the California State prison. Of that number four are women, and of the males about half are white.

J. M. SWIMFORD and C. Macfarley are spoken of by the *Patriot* as persons suitable to succeed Dr. Knox as State Senator from Santa Clara county.

HOLMES C. PATRICK, of San Francisco, for a number of years publisher of the San Joaquin Republican, is an applicant for the position of Port Warden.

THE PEOPLE'S FRIEND.—Perry Davis' Vegetable Pain Killer possesses virtue, which not alone removes pain instantly, but regulates the stomach, gives strength, tone and vigor to the system. It is one of the medicines that is worth more than gold. Don't experiment in testing new remedies, when you can buy the genuine Pain Killer, which everybody knows to be good. The Woodstock (C. W.) Sentinel says: "It is a generally admitted fact that the medicine manufactured by Messrs. Perry Davis & Son has been instrumental in alleviating much pain, and giving relief to millions of suffering humanity. The medical faculty almost everywhere recommend the Pain Killer, and its reputation is now established as the most beneficial family medicine now in use, and may be taken internally and externally to expel pain." THE editor of the Stars and Stripes appears to have taken our mention of the contemplated starting of a Union paper at Auburn as an announcement of an opposition to that paper. Such, we learn is not the fact, the parties did not suppose that the editor of the S. S. had a mortgage upon the Union party of this county—and proposed to start a paper that would supply a vacancy. They do not intend opposing the S. S. but they do intend conducting their paper in such a manner as to command the respect and secure the confidence of the party. This much we infer from those having the project in contemplation.

DURCH FLAT ENQUIRER.

LIFE INSURANCE—THE MONEY DRIFT.
From the San Francisco Alta.

EDITORS ALTA:—I read in your issue of the 11th, a very important statistical paper, compiled by you from the Federal revenue returns, which proves the astounding fact that the distant Life Insurance Companies plying in California through "Agents" draw away nearly a million dollars per annum.

The drain under this head as you state it amounts to:
Year ending 1st August, 1866.....\$406,239
Year ending 1st August, 1867.....\$577,364

And as we write the drain increases and must be now near a million a year, to be a million and a half next year and so on.

And you naturally ask with surprise why this matter has not been taken in hand by some of our enterprising insurance men, so as to arrest the flight of a moiety at least of this enormous drain?

I think, sirs, your question is well put, and though my hands are full, I am yet willing to step forward and assume some of the responsibility and bear some of the preliminary expenses of forming such a Company.

When you reflect, sirs, that this million dollars a year is carried over land and sea, thousands upon the waters of miles, to places where it is lent out by distant Managers and Directors to their manufacturing and commercial friends around them at Five per cent. per annum, while our merchants and manufacturers, who are to compete with these, have to pay Fifteen per cent. per annum for money, (we supply them with the golden weapons to beat us) you will then conceive the magnitude of the injuries effected by the sapping and mining operations of those distant Insurance Companies. The money which must drain away, day by day, steamer after steamer, from our people, will, if not stopped, impoverish this country quite as much as if it were conquered by a foreign power and held in perpetual tribute. A million a year by compound interest will be ten millions in five years; twenty millions in ten years; forty millions in fifteen years; eighty millions in twenty years; one hundred and sixty millions in twenty-five years; three hundred and twenty millions in thirty years! I will admit that the ordinary percentage of deaths on a business of thirty years will effect a drawback of one kind or the income, which in thirty years we will put at one hundred millions. Notwithstanding this, if we go on at our present scale of draining, we shall in thirty years lose by the insurance operation two hundred millions of dollars! But our drain, if we don't stop it, will not stand at one million a year: it will increase year after year from one million a year to two millions a year, which by my foregoing computation would in thirty years foot up to FOUR HUNDRED MILLIONS! What it would amount to in sixty years I leave to other calculations. In round numbers, I should guess it would come to the full number of dollars equaling the national debt of the United States!

Now, sirs, I care not what may be said of me by critics or jealous opponents, some of whom cannot see farther than their noses. I announce myself as ready to make an effort to stop this drain, and I hold every man who co-operates with me a benefactor of his adopted country.

Let the capital of a Local Life and Health Insurance Company be one hundred thousand dollars to begin, in shares of one hundred dollars each. I shall cheerfully take the names of co-operators in a book opened this day in the office of the California Building and Savings Bank, California street, for that purpose.

I remain, your obedient servant,
THOMAS MOONEY.
Building and Savings Bank, California street, November 12th, 1867.

THE princely style in which the New York bloods make reparation for any mishaps which their sporting proclivities occasion among their dependents is chronicled as follows by Satanelia, the San Francisco Call's New York correspondent:

The fashionable thing of the day, the Jerome Park races, did not commence last week, as was expected. The gloomy weather occasioned a postponement. Yesterday, though, they began, and an immense crowd of people, chiefly of the better class of our population, attended, in all the glory of fine clothes and fine equipages. A melancholy accident threw an air of gloom, however, upon the whole day's proceedings. The leading attraction of that day was a hurdle race, and as it is a regular break-neck affair, of course curiosity was at its height to see who would be thrown, what horses would fall in leaping the hurdles, and which one would bolt the course altogether to avoid the leaps. And a fall did take place; for the horse "Negrita," in taking the second hurdle, went down headlong, throwing his rider and falling on him bodily. The rider's skull was crushed in an instant. Still the poor fellow lived about twelve minutes, during which time the race continued, and the horse that was third in leaping the first hurdle was quite ahead in leaping the last. The dead jockey was a man employed in the stable of Mr. Jerome, and had begged permission to ride in the race. Mr. Jerome esteemed him much, and, like a generous man, made the widow a present on the spot, of a house and lot worth ten thousand dollars. A subscription was also taken up on the race course, and the owner of the lucky horse decided to sell him and give the proceeds to the poor widow. Altogether the poor woman will have about eighteen thousand dollars to console her in her bereavement. Of course there are not people wanting to add that she ought to marry and lose another husband in this manner, since the melancholy event has proved so profitable!

THANK YOU.—We call attention to the communication from Colfax in this issue. The writer promises to furnish us a letter each week, and we shall look anxiously for the fulfillment of his promise. He tells us all the news occurring in his town and what he states may be relied on as strictly true.

If you wish the very best CABINET PHOTOGRAPHS, you must call on BRADLEY & RULIFSON, 429 Montgomery street, San Francisco.

AFFRAY.—The *Trespass* of Saturday has the following: This morning a desperate affray occurred at the north end of this city, between Nikola Meser and D. Mazon. It appears that Meser had occupied apartments belonging to Mazon, in the basement portion of his house, but failing to pay his rent, Mazon ejected him from the premises some days since. This morning Mazon started for his store, corner of B and Mill streets, for the purpose of procuring some groceries but was attacked midway between the store and his residence by Meser, who first fired three shots from a six-shooter at Mazon, but neither taking effect, he dropped the pistol, seized a stone, and advancing to Mazon, struck him to the earth, where he held and pounded him over the head with the rock for a time, but getting frightened, or from some other cause, he at last desisted, and seizing his coat and six-shooter, both of which he had dropped, he ran away down the canyon and has not since been seen. Dr. C. C. Green was called to the aid of Mazon, and found that he was badly beaten, having seven distinct wounds upon his head which cut through the scalp but fortunately did not seriously injure the skull. Mazon is in no immediate danger from his wounds.

SUPPOSED SHARP PRACTICE.—Several weeks ago Secretary McCulloch received from an anonymous source a package postmarked Urbana, Ohio, containing \$19,000, the largest portion of which was in 730 bonds. The money was placed to the credit of the conscience fund. Recently a letter was received from a man in Wisconsin, claiming the money to be converted into other securities, such as the President might think proper to send, and gave as his reason for forwarding on signature to his communication, that he was very sick at the time and not being able to write. The officers of the Treasury are of the opinion that the letter is from some party who saw the publication that \$19,000 had been received and thinks he can claim the same.

HOSTETTER'S CELEBRATED STOMACH BITTERS
A PURE AND POWERFUL TONIC
Corrective and Alternative. Of WONDERFUL EFFICACY in Diseases of the STOMACH, LIVER AND BOWELS
PROTECTIVE PROPERTIES.
Prevents Fever and Ague and Bilious Remittent Fevers. Fortifies the System against Malaria and the evil effects of unwholesome water; invigorates the organs of digestion and the bowels;
Steadies the Nerves, and tends to prolong Life.
REMEDIAL PROPERTIES.
Cures Dyspepsia, Liver Complaint, Sick and Nervous Headache, General Debility, Nervousness, Depression of Spirits, Constipation, Colic, Intermittent fevers, Spasms, sea sickness, cramps and all complaints of either sex arising from Bodily Weakness, whether inherent in the system or PRODUCED BY SPECIAL CAUSES.

As a genuine Tonic, HOSTETTER'S BITTERS produces an effect which must be experienced or witnessed before they can be fully appreciated. Persons of feeble habit, liable to Nervous Attacks, Losses of Spirits and Fits of Languor find prompt and permanent relief from the Bitters. The testimony on this point is most conclusive and from both sexes.

In districts infested with Fever and Ague, it has been found infallible as a preventive and irresistible as a remedy. Thousands who resort to it in apprehension of an attack, escape the scourge; and thousands who neglect to avail themselves of its protective qualities in advance, are cured by a very brief course of this marvelous medicine.

Acting as a gentle and painless aperient, as well as upon the liver, it also invariably relieves the Constipation superinduced by irregular action of the digestive and secretory organs.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. Youns, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco.

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly increasing reputation, although it may excite surprise, is but the signal of fact, and follows as the natural result of such a cause. We personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt consolation which appears to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; for he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His office are on Sansome street, opposite the Pacific Mail Steamship office.—News

SPECIAL MEDICAL NOTICE.—DR. CHARLES H. TOZER would most respectfully inform the sick and afflicted that his MEDICAL INSTITUTE is removed to No. 108 Montgomery street, next door to the Occidental Hotel, San Francisco. Having relinquished all old modes of advertising, which has become so common with the Quack Doctors of San Francisco, filling up the newspapers with false references, for the purpose of imposing upon strangers. I think it is only necessary to inform those in need of a Physician of long experience and successful practice, that I can be consulted at all business hours, at my Medical Institute, next door to the Occidental Hotel, San Francisco.

Ladies suffering from the Whites, Piles, Weakness of the Back, Pain in the Side, Headache, Palpitation of the Heart, Derangement of the Monthly Stomach, and all other diseases that the Female System is subject to will find prompt relief by applying to DR. TOZER. My Female Monthly Pills were never known to fail in giving relief in those cases for which they are recommended. To be obtained only at my office. Price of the Pills, 25 cents. Sent by mail or express. Address CHAS. H. TOZER, M. D., San Francisco, Cal., or Lock Box 531, for a free recd. All communications strictly confidential. CHAS. H. TOZER, M. REDINGTON & O'S ESSENCE OF JAMAICA GINGER.

THIS valuable preparation, containing a highly concentrated form of all the properties of the Jamaica Ginger, has become one of the most popular domestic remedies for all diseases of the stomach and digestive organs. As a tonic it will be found invaluable to all persons recovering from debility, whether produced by fever or otherwise, for whilst it imparts to the system all the glow and vigor that can be produced by wine or brandy, it is entirely free from the reactionary effects that follow the use of spirits of any kind.

It is also an excellent remedy for females who suffer from difficult menstruation, giving almost immediate relief to the spasms that so frequently accompany that period. It gives immediate relief to Nausea, caused by the riding in a railroad car, or by sea-sickness, or other causes. It is also valuable as an external application for Gout, Rheumatism, Neuralgia, etc.

STOP THAT COUGHING! SOME OF YOU CAN'T, AND WE SPLY YOU. You have tried every remedy but the ONE destined by its intrinsic merit to surpass all similar preparations. It is not surprising that you should be reluctant to try something else after the many experiments you have made of trashy compounds foisted on the public as a certain cure; but

NEWELL'S PULMONARY SYRUP is really the VERY BEST remedy ever compounded for the cure of Coughs, Colds, Sore Throat, Asthma, Whooping Cough, Bronchitis and Consumption. Thousands of people in California and Oregon have been already benefited by the surprising curative powers of NEWELL'S PULMONARY SYRUP and with one accord give it their unqualified approbation. We now address ourselves to all who are unacquainted with this, the greatest Panacea of the age, for the healing of all diseases of the Throat and Lungs, assuring you that

NEWELL'S PULMONARY SYRUP has cured thousands and it will cure YOU if you try it. This invaluable medicine is pleasant to the taste; soothing, healing and strengthening in its effects; entirely free from all deleterious drugs, and perfectly harmless under all circumstances. DUTCH FLAT ENQUIRER.

A STIRRING SCENE.

The following is a thrilling account of a "supernatural" experiment which created a great sensation in its day. The "miracle" was probably performed something after the manner in which we raise a ghost now, at the theaters, by means of a reflector.

The Duc d'Orleans, regent of France during the minority of Louis XV., was a fervent believer in the marvellous, and was very cleverly taken in by Count Felix de Belmont, a celebrated sorcerer, who pretended to raise the dead. The scene took place on the night of April 23, 1730, in the deserted quarters of Naugard, whither a fashionable party proceeded with the regent. The sorcerer was at his post, and introduced, as his indispensable assistant a tall man, whose features were completely concealed by a huge black beard. After a few words had been exchanged between Belmont and the regent, the latter remained in the foreground with Cardinal Dubois, the rest being scattered about the galleries, whence they could see, but not hear the speeches. The first person evoked was Sully, of whom the regent inquired what he thought of Law's system. The financier of Henry IV. replied that the director of the Banque Generale had led France to ruin. The next specter the regent desired to see was Louis XIV., who duly appeared at the spot where Sully had disappeared. The regent advanced resolutely toward his great uncle. "Sire," he said, as he knelt on one knee, "if it be true that there is nothing hidden from the dead, you will be aware of the purity of my intentions in revoking your will; and I trust will pardon me." The old king opened his arms, the regent rushed eagerly toward the ex-heretic of Europe, but found no resistance. While Philip was trying to recover from his violent emotions, Dubois inquired whether the shadow of the great Cardinal Richelieu could be called from the grave. Count Felix replied in the affirmative; and the cardinal ere long appeared in his red gown. Dubois bowed like a Spanish grandee, and then began a pompous panegyric of his system of government. Richelieu listened attentively, and when Dubois ceased speaking, made him a sign to advance. The regent's minister believed in some important communication from the other world, and overcoming his terror, advanced two paces; but he suddenly received two of the most stinging insults ever dealt a human face. At the same instant the lights were extinguished, and a stentorian voice announced that the creations were at an end. The regent laughed heartily, as did the ladies, while Dubois cursed in a way that would have scandalized a canon. But when Dubois sought for Count Felix the next day, he was nowhere to be found.

We find in a correspondence written in 1754, or two years after the death of Cardinal Dubois, the following explanation of this mysterious adventure. It was well known at the court that the regent's great desire was to exculpate himself from the infamous accusations brought against him. The Duke de X— formed the bold plan of freeing the regent from the ideas that oppressed him. Having known Count Felix at Venice, he renewed the acquaintance when that adventurer came to Paris, and they arranged together the scene we have just described. Two glasses, a reflector, and a few accomplices, sufficed to carry out the farce. The man who personated Richelieu was no other than the Duke de X—. Unfortunately, the raiser of the dead was ignorant of the duke's hatred of Dubois; the two boxes on the carpsoid of the farce, and, fearing the minister's vengeance, he mysteriously disappeared from Paris. In 1735, Count Felix de Belmont was found frozen to death in a sledge while journeying from Moscow to Odessa.

PECULIARITIES OF LANGUAGES.—In all hot countries men use, in speaking, a multitude of vowels, which are all pronounced by greater or lesser apertures of the mouth, in breathing and in speaking, and use very few consonants, all of which are produced by more or less complete interruption of the breath, and contact, or even closure of parts, among the organs of speech. Any one who examines the Italian language will find, therefore, about sixty vowels in every one hundred letters, and in the Otahitean (Tahitian) language, which sounds very like Italian, there are even more, it is said about seventy-five or eighty vowels in every one hundred letters. The proportions are very different in English, in which consonants preponderate; and if we examine the language of Lapland or Greenland, or of the Arctic-American Eskimoes, we shall find that there is an enormous number of consonants in their more than sesquipedalian words, and that most of these are guttural, as they do not like to open their mouths to the cold air sufficiently to pronounce the labial, dental, or lingual consonants, much less the vowel. This is a universal law; though immigration or colonization, or the ancient transplantation of a whole nation by a tyrant conqueror, may sometimes present an apparent exception or anomaly, by our finding a language or a people, originally temperate or torrid, in a frigid zone, or vice versa.

Miss Annie Mosity and Mrs. Ann Tipathy are earnestly requested to call upon Miss Amy A. Bilty, and remove the bad impression they left behind them on Tuesday.

Q: Boy, how are master's socks so dirty? A: I take 'em to strain the coffee. Q: What! you dirty wretch, for coffee? A: Yes, miss; but never take master's clean socks. Master done use, then I take."

A sporting young lady says: "If the course of true love never does run smooth why don't they water and roll it regularly so many hours a day, until they get the course so smooth, that a donkey could run upon it?"

Why is friendship like an addiction to ardent spirits? Because it conducts to hand-shaking.

MEDICAL.

PRIVATE MEDICAL AID.

QUICK CURES AND MODERATE CHARGES.

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute, Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loin, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unimpeachable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit success.

TO THE AFFLICTED.

Dr. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to re-remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genitourinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loin, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unimpeachable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit success.

To Females.—When a female is in trouble, or afflicted with weakness of the back and limbs, pain in the head, dimness of vision, muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go at once to the celebrated female doctor, W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. DOHERTY'S Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

To Correspondents.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. DOHERTY on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that these communications will be held in strict confidence, and all letters are opened only and replied to by himself, and the latter as promptly as possible. If the case be fully and candidly described, personal communication will be unnecessary, as instructions for diet, regimen, and the general treatment of the case (including the Females), will be forwarded without delay, and in such a manner as to convey no idea of the pursuit of the letter, or of the transmission. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay.

Address: W. K. DOHERTY, M. D., San Francisco, California.

Spermatorrhoea.

Dr. DOHERTY has just published an important pamphlet embodying his own views and experience in relation to Spermatorrhoea, or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs.

This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage. Address: W. K. DOHERTY, M. D., San Francisco, Cal.

A CARD FROM THE AMERICAN WATCH COMPANY

of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact that except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ankers, Lepines and so-called Patent Levers—which soon cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.—The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the great distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine, that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches on their merits only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid gold, hunting cases, to the finest chronometer; and ladies' watches in plain gold or the finest enamel and jeweled cases, but the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warranty is good at all times against the Company or its agents.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS.

HOLLOWAY'S OINTMENT.

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system—Abused or debilitated by excess—Indigestion, offensive breath and physical prostration are the natural consequences. Allied to the brain, it is the source of headaches, flurried depression, nervous complaints and unrefreshing sleep. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize by Costiveness, Diarrhea and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum.—Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic, its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.—Cases of many years' standing, that have previously refused to yield to any other remedy or treatment, have been cured by the use of a few applications of this powerful unguent.

Eruptions on the Skin.—Arising from a bad state of the blood or chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the cosmetics and other toilet appliances in its power to dispel rashes and other disfigurements of the face.

Female Complaints.—Whether in the young or old, married or single, life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all chronic, warm fermentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Piles and Fistula.—Every form and feature of these prevalent and stubborn disorders is eradicated locally and entirely by the use of this ointment; warm fermentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Banions, Piles, Sore Legs, Burns, Rheumatism, Sore Breasts, Ringworms, Sore Throats, Fistula, Salt Rheum, Sore Throats, Gout, Scalds, Sprains, Ulcers, Tetter, Erysipelas, Venereal Sores, Sores of all kinds, Mercant Eruptions, Swelled Glands, Wounds of all kinds.

CAUTION.—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a Water Mark in every leaf of the book of directions around each pot or box. The same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

Sold at the manufactory of Professor HOLLOWAY, 81 Maiden Lane, New York; and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

There is considerable saving by taking the larger sizes. Directions for the guidance of patients in every disorder are affixed to each pot and box.

Dealers in well-known medicines can obtain them cheaply, and send FREE OF EXPENSE, by addressing HOLLOWAY, 81 Maiden Lane, New York. K3-1y

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London.

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets, to

108 MONTGOMERY STREET, Adjoining Occidental Hotel.

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, he will not be out of place. The most formidable, the most destructive to mankind, is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the most common, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering.
